

# Planning a Visit

In order to best collaborate with a provider it is important to plan ahead for your next visit to their program. Discuss your role with the provider and ask the provider questions to help develop goals for your visits.

---

Date and time of visit:

Goal you have set together with the provider:

Children and adults who will be there:

Considerations in terms of the home environment and materials:

Strengths and interests of the provider:

How will you and the provider work together? What will you be doing during the visit?
